STORY OF THE MASTERPIECE

FOUR WHEELS - ONE ENGINE and that little something extra. Get on board and start the next season together with your individual driving dream. This masterpiece withstood our qualified testing process, shines with a unique setup and is ready to go "on the road"!

This 1982 Porsche 911 SC Targa is new to us and available immediately. He currently has an Austrian license.

The paint on this beautiful America import is mostly still the untouched original paint, as our measurements have shown. The interior is also the best example of what good care is all about, because it was delivered in an untouched condition.

In 1980, the 3.0 SC was available from Porsche for the first time. In 1981, in addition to the increase in output at the time, it received an additional 16 hp before it was replaced by the 3.2 Carrera in autumn 1983.
