STORY OF THE MASTERPIECE

Classic car restoration is our passion, perfection is our claim. As enthusiasts of historic vehicle restoration, we awaken the splendor of bygone times and ensure an unforgettable driving experience with our craftsmanship.

Another masterpiece from Vehicle Experts leaves us.

After we had already prepared the body for this 964 RST in the past and widened it in steel, it took less than a year to complete this fully restored Porsche 964 Backdate.

On the outside, the arctic gray coupé impresses with its black accents throughout. Nothing can be traced back to its former black color, because we were more than thorough when rebuilding it. At the end of the dismantling, the bare, bare chassis stood in front of us.

From then on things could only get better and so the RST was built exclusively with new or refurbished used parts. Perfect was the only quality level good enough for this car.

We build each of our masterpieces in such a way that it can ultimately be registered as 100% street legal. From the LED headlights to the seats and the exhaust system.

The vehicle shown here is a sold reference vehicle. We would be happy to discuss and configure your personal Vehicle Experts Outlaw in a relaxed atmosphere in our Appointment Hall.
