STORY OF THE MASTERPIECE

FOUR WHEELS - ONE ENGINE and that little something extra. Get on board and start the next season together with your individual driving dream. This masterpiece withstood our qualified testing process, shines with a unique setup and is ready to go "on the road"!

This beautiful sunroof coupe was first delivered to Austria in 1986, the last year in which the 911 was equipped with the popular 915 transmission.

The speedometer shows just 98 thousand kilometers and apart from a touch-up of paint on the rear right after a scratch, the outer skin is in its original condition. We measured around 90-100 M μ .

The interior features the finest pinstripes with black leather. A timeless combination that is far too rare to find today.

Technically in top condition, this robust 3.2 Carrera enjoys great popularity and, like its successor, has become an icon of the air-cooled series in recent years.

This Porsche 911 was in Austrian hands until the end. Officially there are 5 previous owners, but it has been passed down through the family several times. The history is therefore understandable.
